Dear **Dr.** Henney:

I am writing with my concerns regarding Genetically Engineered Foods. I recently read an article **in the** Vegetarian Times that I found very disturbing.

Our family is concerned about the quality of food we consume. I want engineered foods to be labeled so we as consumers can be aware of the products we are purchasing. Most of the food we eat is organic, but when I go to the grocery store I want to know that a tomato is a tomato, etc. Please don't keep us in the dark!

Sincerely,

Jennifer L. Parkinson
